

Cross Country Report

On the 14th March 2018 I took 9 pupils from Key Stage 2 to a cross country competition organised by Boston and District School Sport Partnership at William Lovell Academy.

The children were very excited but also quite nervous. Following a team talk on the coach they were all feeling positive and raring to go!

We were in the large schools races and had to wait whilst the small schools raced. The girls raced first and gave it their all. The course seemed to go on forever but with encouragement from the boys everyone kept going. We came an amazing 5th, 8th, 13th and 40th which gave us 66 points. Having watched the girls the boys knew exactly what they had to do. They were very determined and spurred each other on. We did very well and came 6th, 11th, 26th and 31st which gave us 74 points.

Once all the events were completed we gathered together to hear the results. We did not come in the top three but I was very proud of each and every one of the children for their amazing achievements. They were a credit to the school and great competitors. Well done!
